PACE Policy Letter 17-01

TO: PACE Organizations, MSSP Sites, CalPACE, MSSP Site Association

SUBJECT: Double Enrollment of Beneficiaries to the Program of All-Inclusive Care for the Elderly and the Multi-Purpose Senior Services Program

PURPOSE

The purpose of this letter is to provide clarifying guidance to counties regarding dual enrollment of waiver participants/beneficiaries in the Multipurpose Senior Services Program (MSSP) and the Program of All-Inclusive Care for the Elderly (PACE) program. PACE beneficiaries cannot be served by MSSP, any other Fee-For-Service Medi-Cal program, Cal MediConnect or any other Medi-Cal managed care program.

Pursuant to Title 42 Code of Federal Regulations Part 460.90: *"the participant, while enrolled in a PACE program, must receive Medicare and Medicaid benefits solely through the PACE organization."*

This policy letter also outlines the steps required to allow the waiver participant/beneficiary to dis-enroll from one of the programs.

PROGRAM BACKGROUND

PACE Overview

PACE is an all-inclusive program designed to coordinate and provide necessary preventive, primary, acute, long-term care, social and rehabilitative services through one comprehensive program. PACE provides all services in the Medi-Cal State Plan, in addition to services deemed necessary by the interdisciplinary team. Individualized services are provided exclusively by PACE staff and contracted providers through the PACE program, except in the case of an emergency. There are no limits on the amount or duration of services. Services are available 24 hours a day, seven days a week.

Interdisciplinary team care management services are provided by the PACE program through PACE-employed and contracted staff. There are currently eleven (11) PACE programs located in California. PACE provides services to participants residing in the

following counties: Alameda, Contra Costa, Fresno, Humboldt, Los Angeles, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, and Santa Clara. Service areas are zip code specific and approved by DHCS in conjunction with the federal Centers for Medicare and Medicaid Services (CMS).

MSSP Overview

MSSP is a program that provides both social and health care case management services for frail and elderly individuals who wish to remain in their own homes and communities. The purpose of the program is to use available community services and resources to prevent or delay institutionalization. The long-term care management services must be provided at a cost lower than that of a skilled nursing facility.

Description of the Issue

DHCS has been made aware that there are beneficiaries who are concurrently enrolled in both MSSP and PACE. This combination of program-participation is not allowable, as the case management services provided by all programs will constitute a duplication of services and payment.

Program Termination Process

MSSP Termination

If an MSSP waiver participant is enrolled in PACE simultaneously, the waiver participant must select which program they want to remain enrolled in, either PACE or MSSP. Should the waiver beneficiary select to remain in PACE, the MSSP must begin the MSSP Termination process outlined in Section 3.1700 Termination of the MSSP Site Manual.

PACE Termination

If the waiver participant would like to remain in MSSP, he or she will need to dis-enroll from PACE. PACE will continue to furnish all necessary services until the effective disenrollment date. PACE will work with the participant to dis-enroll expeditiously, and to ensure the disenrollment date is the same for both Medicare and Medi-Cal in accordance with the following steps:

- Upon receipt of a participant's request for a voluntary disenrollment from PACE, PACE will inform the participant or authorized representative, in writing, of the disenrollment procedures;
- PACE will have the participant sign a voluntary disenrollment form;
- PACE will keep the disenrollment form on file to document the disenrollment effective date; and
- PACE will submit an electronic disenrollment file to DHCS for processing.

DHCS will dis-enroll the participant in the Medi-Cal Eligibility Data System (MEDS) on the last day of the month in which disenrollment is requested. Enrollment will cease at

11:59 PM on the last day of the month prior to the effective date of disenrollment as approved by DHCS. From that time forward, PACE will be relieved of all obligations to provide or arrange for covered services to the participant.

Enrollment Process

As part of the PACE program enrollment and screening process, each potential PACE participant is asked whether they are receiving MSSP services. If so, they are informed that if they enroll in PACE, they must terminate MSSP services because PACE provides all care management services.

If the beneficiary is currently enrolled in MSSP and would like to enroll into PACE, the beneficiary will need to notify the MSSP Site to begin the disenrollment process from MSSP. In order to be enrolled into PACE, the beneficiary must meet the requirement criteria of the program.

Once it has been determined that the beneficiary has met the program requirements/criteria for PACE and the beneficiary has begun the disenrollment process from MSSP, the beneficiary will receive a Notice of Action for the termination of the MSSP benefit.

RESOURCES

Table 1 below illustrates the PACE and MSSP locations in the counties where both programs are active.

Table 1: Listing of PACE & MSSP Organization/Provider

COUNTY	PROGRAM NAME	PROGRAM ADDRESS	PROGRAM TYPE	PLAN CODE
Alameda	Center for Elders Independence	510 17 th Street, Suite 400 Oakland, CA 94612 (510) 433-1160 ext. 8830	PACE	051

Next Steps

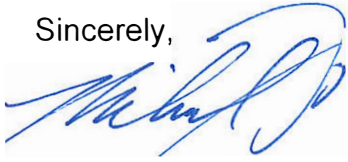

On a monthly basis, the Long-Term Care Division (LTCD) at DHCS will run a report identifying which beneficiaries have concurrent enrollment in MSSP and PACE.

DHCS will provide the list directly to the PACE Organizations and to the California Department of Aging for dissemination of the information to the appropriate MSSP Site(s). Once the waiver participant/beneficiary has been identified, the plan/provider (PACE or MSSP) will be responsible for relaying the information to the waiver participant/beneficiary. The waiver participant/beneficiary will then need to make a decision on which program they would like to continue their services. After deciding, the termination process will begin as described in the above section (entitled Program Termination Process). If, after 30 days, the participant/beneficiary has not decided which program they want to be enrolled in, PACE or MSSP will have the authority to involuntarily dis-enroll the participant/beneficiary from their respective program.

If you have any questions regarding the PACE program, please contact Stryder Morissette at Stryder.Morissette@dhcs.ca.gov.

If you have any questions regarding MSSP, please contact Tyra Taylor at Tyra.Taylor@dhcs.ca.gov.
